# VIVID VISION 2028

\* This is the vivid vision of The Dark Horse Project. It's an overview of what The Dark horse Project will look like, act like, and feel like three years out—by December 31st, 2028.

# THE WHY

It ALL starts with WHY.

Our purpose, our driving force, our northstar.  
The reason we do what we do!

For us it is EMPOWERMENT.

Giving people the power to do great things and  
the ability to achieve their goals, visions and  
dreams.

We believe there is power in learning.

We believe in the role model mindset and servant  
leadership.

And together we are EMPOWERING VISIONS  
through collaboration and education because  
today's community is tomorrow's world

em·pow·er·ment  
/im'pouərment/  
noun: empowerment; plural noun: empowerments  
authority or power given to someone to do  
something.  
~ the process of becoming stronger and more  
confident, especially in controlling one's life and  
claiming one's rights.

# THE WHO

You! Me. Our friends, our families and our communities!

We are a growing global community and with each person the ripple effect of EMPOWERMENT  
continues to strengthen our members, their businesses and our world.

Our CoLAB Partnerships are win-win opportunities focused on optimizing impact, increasing  
efficiency and developing sustainability. Our Promo Partners give our community a voice and our  
educators are world class experts in their fields.

Our members are the life of The Dark Horse Project. Our membership levels range from virtual  
CoLABers to the Founders Club and provide a variety of ways to learn, connect and grow.  
Members engage virtually on the Dark Horse Network and gather in person for local chapter

# A note from our Founder

## Lisa Ciesniewski

The greatest honor of my life has been to lead The Dark Horse Project.

I am inspired daily by our community!

I am always in awe of the amazing team of striving servant leaders that I have the pleasure of working alongside and who are the greatest of friends.

This is an amazing journey.

As an entrepreneur with a visionary spirit I often find myself a bit outside the box and it has been a humbling experience to witness the impact and reach the project has made. What started as an idea sparked during a Tony Robbins event and fanned by the inspiration and coaching of Brendon Burchard, Dean Graziosi and Grant Cardone has truly become a **FORCE FOR GOOD**.

Follow your dreams my friends. Listen to your intuition. Be true to your passions. And **BELIEVE!!**

There is power in intention.  
There is power in vision.  
There is power in strategy.

The secret sauce is in the habits.

If you are not already a member of The Dark Horse Project and this vivid vision resonated with you, I want to invite you to check us out and join our growing community.

*With love,*

*Lisa Ciesniewski*
